Recurring Lessons

- Goals and objectives need to be clear, concise, and shared by those at table and those receiving the results.
- Start with a shared vision of the future.
- Include all whose support is needed for implementation.
- Determine if anyone has a “BATNA”
- Make sure everyone is at the table voluntarily.
- Avoid consensus “fallbacks.”
- Have a clear definition of consensus.
- Involve a neutral, third party facilitator.

Discussion/Q&A

- How are these projects similar to or different from one another?
- What obstacles or challenges were faced? How were they overcome?
- What was the value of a university-based neutral being involved? Was it important? Why?
- What is one thing you learned from the project that you will take with you to future projects?
- Did the project include a situation assessment? If so, was that of value?
